The CEPEP Company Limited recognizes that these are undoubtedly overwhelming times, with little certainty as to what we are facing.

However, we wish to assure the public that we are fully supportive of and remain in strict compliance with the guidelines as outlined by the Honourable Prime Minister, the Minister of National Security and the Minister of Health, as it pertains to business continuity, whilst we combat the COVID-19 pandemic.

We remain supportive of the Government's "Stay at Home" mandate effective 30th March 2020 to 15th April 2020.

This is a rapidly evolving situation, which is actively being monitored by the Government, the Board of Directors and Management of our Company.

We remain ready to adjust as things progress and will update the public throughout.

We truly believe that we are in this together and in that same vein, we will get through this together.

Stay safe and look after each other.

Yours in service,

Keith Eddy
